

Hygiea Scrubs Soft 'n' Sour

Fabric Softener and Laundry Sour

5L P1365

20L P1370

DESCRIPTION:

Hygiea scrubs Soft 'n' Sour is a dual-action liquid additive for laundry washing machines which functions both as a fabric softener and laundry sour. The gentle action of **Soft n Sour** acts to neutralise any carried-over alkalinity from the earlier cycles of washing thus restoring the pH to the correct level for the fibres and prevents adverse skin reactions in people who wear or use laundered clothes.

It improves the feel of washed fabrics by imparting a softness and bulkiness to the fibres. It helps eliminate static cling, reducing drying times, adding a pleasant fragrance and it revitalises the brightness of coloured fabrics. Wool, cotton, polyester blends and all other fabrics are suitable for rinsing with Hygiea scrubs Soft Sour.

Another benefit is the prevention of accelerated soiling due to adhesion of solid particles when static cling is present. Hygiea Scrubs **Soft n Sour** is an excellent combo that shows no build-up with multiple cycles.

Key Advantages

- High in neutralising value, therefore very economical
- Gentle on fabrics
- Delivers a pleasant residual fragrance
- Ideal for all washable fabrics, white or coloured
- Able to suspend soils and mineral particles, thereby facilitating the rinse action

Soft n Sour is added to the final rinse water in washing machines. It is ideal for use in all industrial, commercial and household laundry operations and is suitable for all conditions. It stops the tendency of synthetic garments from clinging to the skin, especially after tumble-drying and stops problems caused by lint in the tumble-dryer.

DIRECTIONS:

Soil level	Dosage(ml/kg dry goods)
Light	2-3mL
Heavy	3-5

Dose manually or via automatic dosing equipment.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance:	Opaque Liquid
Odour:	Fresh Fragrance
Specific Gravity:	1.00
pH:	1.5-2.0

The above data is typical of normal production and should not be taken as a specification.

FIRST AID MEASURES:

Ingestion:

Immediately rinse mouth with water. If swallowed do not induce vomiting. Give water to drink. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment. Do not rub eyes or keep eyes closed.

Skin Contact:

Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.

Inhalation:

Remove the affected person out to a ventilated area. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.

Safe handling and storage information

Store in original closed containers or (where applicable) in an approved bulk tank, away from extremes of temperatures. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.

This product is compatible with all Hygiea Scrubs Laundry products.
