

# Citra Solv-It

## Degreaser & Spotter

**Tar, Ink, Paint, Grease, Adhesive, Chewing Gum**

500mL - P30500

5L - P305

---

### DESCRIPTION:

Citra Solv-It is a water-soluble solvent and spotter, excellent for industries such as painting, transportation, contract cleaning, laundry and food. It works easily on tar, ink, grease, paint, adhesive and chewing gum. Citra Solv-It is free-rinsing and leaves surfaces residue free.

---

### DIRECTIONS:

Use product undiluted. Always test Citra Solv-It on an inconspicuous area to check suitability and colourfastness prior to use.

**General application:** Blot Citra Solv-It onto soiled area with a cloth then work the stain toward centre. Rinse with wet cloth.

**Carpet:** For ink, grease or oil, apply onto stain and work the stain toward centre using a clean white towel, then rinse.

**Concrete:** Spray or pour onto surface, then agitate and rinse.

**Glue or Gum on Concrete:** Use scraper to remove excess glue or gum. Apply Citra Solv-It to area, agitate and rinse.

Care should be taken when using Citra Solv-It on walls or paint.

### PHYSICAL AND CHEMICAL PROPERTIES:

<b>Appearance:</b>	Light Yellow
<b>Odour:</b>	Orange
<b>Specific Gravity:</b>	0.84

---

### FIRST AID MEASURES:

#### Ingestion:

Immediately rinse mouth with water. If swallowed do not induce vomiting. Give water to drink. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

#### Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment. Do not rub eyes or keep eyes closed.

#### Skin Contact:

Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.

#### Inhalation:

Remove the affected person out to a ventilated area. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.
