

Coffee SpotOut

Coffee, Tea, Tannin & Urine Spotter

500mL - P2701

5L - P2705

DESCRIPTION:

Coffee SpotOut is a specialty product for effective removal of coffee, tea, tannin, berry, red wine stains, fruit juice, fresh urine stains and water marks in carpet. For old urine stains we recommend using Advance Nature's Solution – bio enzymatic stain and odour neutraliser prior to extraction.

Coffee SpotOut is a low pH acid spotter and is effective in neutralising alkaline spotters such as SpotOut Protein.

DIRECTIONS:

Carpet: Pre-test for colourfastness prior to application. Coffee Spotout must be neutralised and rinsed as a spotter from carpet. Apply undiluted to the affected area. Allow to stand for two minutes, lightly agitate with gloved fingers, then sponge or extract. Apply small amount of Browning Treatment to reduce final trace of dye.

Dye Stains:

Use on fresh food dye stains prior to spotting with SpotOut Protein to neutralise, followed by Browning Treatment. Coffee SpotOut will assist in the removal of certain colour runs and water marks.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance:	Clear Light Pink
Odour:	Vinegar Smell
Specific Gravity:	1.00
pH:	2.5 +/- 0.5

FIRST AID MEASURES:

Ingestion:

Immediately rinse mouth with water. If swallowed do not induce vomiting. Give water to drink. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment. Do not rub eyes or keep eyes closed.

Skin Contact:

Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.

Inhalation:

Remove the affected person out to a ventilated area. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.
