

Nappy Wash

Fabric Whitener & Soaker

5 KG

- PX70

DESCRIPTION:

Nappy wash is a powerful, oxygen release powder pre-soak for the removal of stains such as tea, coffee, and juice stains from crockery, plastics, and cutlery prior to machine dishwashing. It does not contain Chlorine so it is generally safer to use (when used as directed) and won't stain or discolour fabrics or clothing which may come into contact with the solution.

DIRECTIONS:

Use in hot water for best results.

General purpose cleaning: Dilute 40g per 7 Litres of water. Agitate and leave for 2 to 3 hours

PHYSICAL AND CHEMICAL PROPERTIES:

| | |
|--------------------------|-----------------------|
| Appearance: | White and Blue Powder |
| Odour: | Lemon |
| Specific Gravity: | N/A |
| pH: | 12 |

FIRST AID MEASURES:

Ingestion:

Immediately rinse mouth with water. If swallowed do not induce vomiting. Give water to drink. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment. Do not rub eyes or keep eyes closed.

Skin Contact:

Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.

Inhalation:

Remove the affected person out to a ventilated area. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.
