- All carpets and hard floors

1949 - 2020
Intelligent Cleaning Technologies

Please see back for Features and Technical Specifications.

**Engineered to be reliable, easy-to-use
and even easier to service.
The Wombat is built tough
for the toughest commercial conditions
for cleaners and tradespeople.**

Rotationally-moulded body, double dust bags and a rotational airflow system makes the Wombat unique.

Wombat's two dustbags are tapered to provide air circulation space to ensure consistent and increased suction even as the dust bag fills.

Dual dustbags equal increased filtration and increased motor protection.

The heavy-duty poly body is rotationally moulded to resist extreme domestic and industrial wear and tear.

8 litre capacity

Wombat's 8 litre capacity makes it the ideal heavy-duty, but lightweight pullalong vac female Operators will love to use.

Over 120 Distributors in Australia, New Zealand and worldwide

Every Polivac product is backed by a national and international network, so you can be confident of service, repairs or parts supply being turned around ...fast!

**3 wheels for manoeuvrability
complete with wheel guards**

Ensures maximum manoeuvrability and maximum protection for furniture, walls and fittings

High-density lead restraint

Protects the Operator. Protects the machine. Reduces downtime due to accidental disconnections.

Simply designed to be simply reliable ...and serviced faster

All screws recessed with brass sleeves to make servicing easier and prolong body life.

Optional Powerhead socket

Available on request. Turbocharge Wombat's cleaning power with a powerhead. Plugs straight in.

* Some units made in Australia. Others are imported
