

- H317 May cause an allergic skin reaction.
- H318 Causes serious eye damage.
- H315 Causes skin irritation.
- H401 Toxic to aquatic life.
- H290 May be corrosive to metals.

Prevention Statement

- P102 Keep out of reach of children.
- P103 Read label before use.
- P234 Keep only in original container.
- P264 Wash hands thoroughly after handling.
- P272 Contaminated work clothing should not be allowed out of the workplace
- P273 Avoid release to the environment.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P390 Absorb spillage to prevent material damage.

Response Statement

- P101 If medical advice is needed, have product container or label at hand.
- P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
- P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P310 Immediately call a POISON CENTER or doctor/physician.
- P332 + P313 If skin irritation or rash occurs: Get medical advice/attention.
- P362 Take off contaminated clothing and wash before re-use.
- P391 Collect spillage.

STORAGE

P501 : Dispose through licensed disposal contractor.

Other Hazards : None Known

3. COMPOSITION/INFORMATION ON INGREDIENTS

Ingredient	CAS#	Concentration %
Sodium Tripolyphosphate	7758-29-4	<5
LABSA	68584-22-5	<5
Ethanol amine	141-43-5	<5
Coco amido betaine	61789-40-0	<5
1-Methoxy-2-Propanol	107-98-2	<15
Other Ingredients – Non-Hazardous		Level

4. FIRST AID MEASURES

Ingestion	Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Keep at rest. Immediately call a POISON CENTRE, doctor, or physician. Get medical attention or advice if you feel unwell.
Eye contact	Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes.
Skin contact	Take off immediately all contaminated clothing and wash it before re-use. Immediately call a POISON CENTRE, doctor, or physician.
Inhalation	Remove person to fresh air and keep comfortable for breathing. Get medical attention or advice if you feel unwell

Poison Information Centre: Call 0800 764 766 (0800 POISON)

5. FIRE FIGHTING MEASURE

Suitable extinguishing media :	Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam. Keep containers cool and protect exposed material. If a leak or spill has not ignited, water spray may be used to flush spills away from exposures
Unsuitable extinguishing media :	None known.

Specific hazards during firefighting :	Not combustible. However, following evaporation of aqueous component, residual material can burn if ignited. While burning, it will emit toxic fumes including carbon monoxide and carbon dioxide.
Hazardous combustion products :	Decomposition products may include the following materials: Carbon oxides nitrogen oxides (NOx) Sulphur oxides
Special protective equipment for firefighters :	Use personal protective equipment. Fire fighters to wear self-contained breathing apparatus if risk of exposure to vapour or products of combustion as well as structural fire fighter's uniform.
Specific extinguishing methods :	Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes

6. ACCIDENTAL RELEASE MEASURES

Emergency Precautions:

Personal precautions, protective equipment and emergency procedures Wear suitable protective clothing, gloves, and eye/face protection. Evacuate all unnecessary personnel. Increase ventilation. Avoid walking through spilled product as it may slippery.

Environmental precautions: Do not allow to enter drainage system, surface, or ground water. Dilute with plenty of water. Advise the Environmental Protection Authority or your local Waste Management. Use clean, non-sparking tools and equipment.

Methods and material for containment and cleaning up Use neutralising agent. Absorb onto dry sand or similar inert material.

Environmental precautions:

Do not allow to enter drainage system, surface, or ground water.

Dilute with plenty of water.

Advise the Environmental Protection Authority or your local Waste Management.

Use clean, non-sparking tools and equipment.

Methods and Materials for Containment and Clean Up:

Soak up spilled product using absorbent, non-combustible material such as sand or soil. Avoid using sawdust or cellulose. When saturated, collect material into suitable, labelled, dry, sealable containers and hold for safe disposal. Once pick-

up is complete, flush spill site with plenty of water to eliminate any residue. Hold contaminated water for treatment/disposal.

7. HANDLING AND STORAGE

Advice on safe handling:

Wash hands thoroughly after handling. Use only in a well-ventilated area. Avoid contact with eyes, skin, and clothing. Empty containers retain product and residue (liquid or vapour) and can be dangerous. Keep container tightly closed. Always wash hands before smoking, eating, or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Do not dispose of material to sewers or waterways.

Advice on general occupational hygiene:

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink, and animal feeding stuffs. Wash hands before breaks and at the end of workday. Wash face, hands, and any exposed skin thoroughly after handling. Take off immediately all contaminated clothing. Wash contaminated clothing before reuse. Use personal protective equipment as required. Avoid contact with skin and eyes. Do not eat, drink, or smoke when using this product. Use only with adequate ventilation.

Conditions for safe storage: Keep out of reach of children. Keep container tightly closed. Store in suitable labelled containers.

Storage temperature: 0 °C to 50 °C

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Standards: No Tolerable Exposure Limit (TEL)

Workplace Exposure Standards (WES) has been set by the Occupational Safety and Health Service, NZ Department of Labour for this substance.

Biological limit values: None established.

Engineering Controls:

The use of local exhaust ventilation is recommended to control process emissions near the source. Laboratory samples should be handled in a fume hood. Provide mechanical ventilation of confined spaces. Use explosion proof ventilation equipment.

PERSONAL PROTECTIVE EQUIPMENT

Eye protection: Safety glasses with side-shields.

Hand / Skin Protection:

Always wear long sleeves and long trousers or coveralls, enclosed footwear or safety boots and chemical resistant gloves when manufacturing this product.

Chemical-resistant protective gloves (EN 374). Verify instructions regarding permeability and breakthrough time, as provided by the glove's supplier. Consider specific local use conditions, such as risk of splashes, cuts, contact time and temperature. Suggested gloves for prolonged contact: Material: butyl rubber Penetration time: ≥ 480 min Material thickness: ≥ 0.7 mm Suggested gloves for protection against splashes: Material: nitrile rubber Penetration time: ≥ 30 min Material thickness: ≥ 0.4 mm In consultation with the supplier of protective gloves a different type providing similar protection maybe chosen. **Body protection:** Wear chemical-resistant clothing and boots in case direct dermal exposure and/or splashes may occur (EN 14605).

Respiratory protection:

Where concentration in air may exceed the limits described in the National Exposure Standards, it is recommended to use a half face filter mask to protect from overexposure by inhalation. A type "A" filter material is considered suitable for this product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	: Clear / Blue
Physical State	: Liquid
Odour	: Odourless
Odour Threshold	: Not determined
pH	: 11 ± 0.5
Solubility	: Soluble in water
Vapour Density	: Not Known
Boiling point	: $>100^{\circ}\text{C}$
Freezing Point	: Not Known
Ignition Point	: Not Known
Flash Point	: Not determined
Flammability	: Not determined
UEL/LEL	: Not determined
Partition Coefficient	: Not determined
Auto ignition Temperature	: Not determined
Decomposition Temperature	: Not determined

Kinematic Velocity Particle : Not determined
Characteristics : Not determined
Specific Gravity : 1.000 Approx
Vapour pressure : Not Known
% Volatilities : Not Applicable

10. STABILITY AND REACTIVITY

- Chemical Stability:** Stable at room temperature and Pressure
- Conditions to avoid:** Avoid excessive heat, direct sunlight, moisture, high temperatures. No hazardous reactions are known under normal storage and use conditions.
- Incompatible Materials:** Incompatible with oxidizing agents, acidic agents, including acidic clays and sources of Ignition. Reacts with acids.
- Hazardous decomposition:** When involved in a fire, this product will generate carbon oxides, Nitrogen Oxides, Sulphur Oxides.
- Hazardous reactions:** No dangerous reaction known under conditions of normal use.

11. TOXICOLOGICAL INFORMATION

Mixture data:

No adverse health effects expected if the product is handled in accordance with the safety data sheet. Symptoms or effects that may arise if the product is mishandled and the overexposure occurs are:

Acute Effects

- Eyes : Causes serious eye irritation.
Skin : This product is irritating to skin.
Ingestion : Small amounts of liquid aspirated into lungs during ingestion, or from vomiting. Ingestion of large amounts of this product will result in headaches, nausea, dizziness, and tracheal burning.
Inhalation : This product may be irritating to respiratory tract

Exposure : Health injuries are not known or expected under normal use

12. ECOLOGICAL INFORMATION

Persistence/ degradability: The substance is aerobically readily biodegradable and anaerobically biodegradable.

Mobility: No data available for this product.

Toxicity -Environmental Effects: Harmful to aquatic life. Avoid contaminating water ways.

Other adverse effects: No data available

Aquatic toxicity (Chronic)

Category 3

13. DISPOSAL CONSIDERATIONS

Disposal Methods:

Do not contaminate storm water drains, natural waterways, or soil with chemical or used container. Where possible recycling is preferred to disposal or incineration.

If recycling is not practicable, dispose of contents/container in accordance with local regulations. Dispose of in accordance with local and national regulations.

Disposal considerations:

Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not reuse empty containers. Dispose of in accordance with local, state, and federal regulations.

14. TRANSPORT INFORMATION

Land transport, Sea transport (IMDG), Air transport (ICAO-TI / IATA-DGR)

Road and Rail Transport: Classified as Dangerous Goods by the criteria of New Zealand Dangerous Goods Code for transport by road and rail.

Marine Transport: Classified as Dangerous Goods by the criteria of international Maritime Dangerous Goods Code for transport by sea.

Air Transport: Classified as Dangerous Goods by the criteria of international. Air Association Dangerous Goods Regulations for transport by air.

Special precautions for user: None

Shipping Name : Ethanol Amine

Hazard Class : 8

UN Number : UN2491

Packaging Group : III

Hazchem code : 2X

IMO/IMDG

EmS: F-A, S-B

Transport regulations include special provisions for certain classes of dangerous goods packed in limited quantities.

Environmental Hazards:

Aquatic toxicity (Chronic)

Category 3

15. REGULATORY INFORMATION

Safety, health, and environmental regulations/legislation specific for the substance or mixture

HSNO Approval No **HSR002526**

Group Standard Cleaning Products (Corrosive hazard) Group Standard 2020

Inventory Listing(s) New Zealand: NZIoC (New Zealand Inventory of Chemicals)
All components are listed on the NZIoC inventory or are exempt.

16. OTHER INFORMATION

HSNO Classification: 6.3A, 6.5B, 8.1A, 8.3A, 9.1C

Date of Preparation: 31/05/2024
