

Hygiea Scrubs Laundry Detergent

Liquid Laundry Detergent

5L P1315

20L P1320

DESCRIPTION:

Hygiea Scrubs **Laundry Detergent** is a concentrated built laundry detergent, formulated for use in commercial and On-Premises laundry (OPL). It is suitable for cleaning fabric for all fabric types and best within an OPL dosing for healthcare, Aged care, motels and other commercial laundry linen.

Key Advantages

Hygiea Scrubs **Laundry Detergent** is formulated with a unique blend of surfactants, alkalis, sequestrants and optical brighteners for maximum performance in all water hardness conditions. It contains a mild pleasant fragrance that will leave fresh laundry smell on fabrics. It is ideally suited as a single shot-built wash detergent, however, may be used in conjunction with an alkali booster for heavily soiled fabric.

It is not recommended for use on delicate fabrics such as acetates, silk, and woollens. However, it is effective for washing cottons and polycottons. It is also suitable for auto-dosing.

MPI Approved C33

MPI Approved for use in Farm Dairy and Dairy Processing

Designed For

- Institutional
- Healthcare
- Lodging
- Government and
- Commercial Laundry

DIRECTIONS:

Soil level	Dosage (ml/kg fabric)
Light	3-5 ml/kg
Heavy	10-12 ml/kg

Note: Dose manually or via automatic dosing equipment.

Water level should be low and temperature around 80°C.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance:	Blue Liquid
Odour:	Fresh Fragrance
Specific Gravity:	1.03
pH:	Approx 8.2

The above data is typical of normal production and should not be taken as a specification.

FIRST AID MEASURES:

Ingestion:

Immediately rinse mouth with water. If swallowed do not induce vomiting. Give water to drink. Never give anything by mouth to an unconscious person. Seek immediate medical attention.

Eye Contact:

Immediately flush eyes with large amounts of water for at least 15 minutes while holding eyelids open. Transport to the nearest medical facility for additional treatment. Do not rub eyes or keep eyes closed.

Skin Contact:

Remove contaminated clothing. Flush exposed area with water and follow by washing with soap if available.

Inhalation:

Remove the affected person out to a ventilated area. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Seek medical attention.

Safe handling and storage information

Store in original closed containers or (where applicable) in an approved bulk tank, away from extremes of temperatures. Full guidance on the handling and disposal of this product is provided in a separate Safety Data Sheet.
