

ADVANCE NATURE TAG OFF GRAFFITI REMOVER

Product Code: 20 Litres P8821

MPI Approved C31- All animal product except dairy
Eco Choice licensed

DESCRIPTION

Advance Nature TAG OFF Graffiti Remover Gel is an environmentally responsible product designed for the effective removal of graffiti and paint. It is safe for use on smoothly painted surfaces such as trains, vehicles, bus stations, signposts, industrial buildings and others. The product is also suitable for application on porous substrates.

TAG OFF Gel formulation allows for efficient and controlled application, enabling graffiti to dissolve quickly and easily.

TAG OFF Graffiti Remover Gel is safe for use on aluminum and other surfaces where paint and lacquer coatings have been applied. The product is readily **biodegradable**.

DIRECTIONS

Vehicles:

Apply a uniform layer of TAG OFF Graffiti Remover Gel using a brush, ensuring all graffiti is fully covered. Allow the product to dwell for 15 seconds to one minute. Once the graffiti has dissolved, wipe the dissolved material with a clean cloth or alternatively jet off with medium-pressure and preferably warm water. Repeat process if necessary.

Porous Surfaces:

Apply TAG OFF using a brush, roller, or high-pressure spray system. Agitate the treated area with a brush and allow a dwell time of up to one minute. Longer dwelling times may be required for thicker paint layers or in colder conditions. When using a water blaster, adjust water temperature and pressure according to the surface type. In most cases, ambient water temperature is sufficient for rinsing.

For any residual shadowing, reapply TAG OFF Graffiti Remover Gel (provided the surface can withstand the treatment) and rinse thoroughly.

Note:

When treating metal surfaces, excessive pressure may reduce effectiveness. Improved results may be achieved by wiping the surface with a sponge or cloth during the rinsing process.

Dosage:

Use as concentrate.

Consumption:

0.3—1.0 litre/m².

Storage:

- 1.0 Store in a cool place.
- 2.0 Avoid contamination with water.

Shelf Life:

Approximately 12 Months in unopened container.

TECHNICAL INFORMATION

- Viscous Orange Liquid – Colour may vary.
- Mild solvent odour
- Boiling Point > 100°C
- Specific Gravity: 1.15 Approx
- Contains: M-Esters, 2-Methoxy-1-methyl ethanol.
- Biodegradable.

FIRST AID MEASURES

Ingestion:

Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Keep at rest. Immediately call a POISON CENTRE, doctor, or physician. Get medical attention or advice if you feel unwell.

Eye Contact:

Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes.

Skin Contact:

Take off immediately all contaminated clothing and wash it before re-use. Immediately call a POISON CENTRE, doctor, or physician.

Inhalation:

Remove person to fresh air and keep comfortable for breathing. Get medical attention or advice if you feel unwell.

Poison Information Centre: Call 0800 764 766 (0800 POISON)

Marking
